TYPE-C

Elegant Master Series

Foldable car vacuum cleaner

G2plus

Model:	G2plus	Product Name:	Foldable Car Vacuum Cleaner
Motor Type:	H45 Brushless Motor	Gear Adjustment:	3rd Gear
Rated Voltage:	11.1V ~	Rated Power:	100W
Current:	Low: 4.5A / Medium: 6.0A / High: 9.0A	Vacuum Degree:	Low >11kPa / Medium >14 / High >18kPa
Battery Capacity:	2600mAh	Number Of Batteries:	3 Cells
Battery Life:	Low 35min / Medium 20min / High 17min	Charging Time:	4.5h
Dust Cup Capacity:	200ml		

- Three-level adjustment Charging (green/orange/red)
- Type-C charging Convenient and fast, long-lasting battery life
- One-touch dust emptying Easy to operate, simplifying cumbersome tasks
- 45 brushless motor Powerful performance, efficient cleaning
- Digital display screen Battery level display, control your time
- Multi-function mode Four-in-one action: blowing, inflation, and pumping

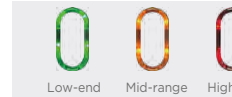

Brushless motor

Elegant Master Series

One line car vacuum cleaner

G3

Model:	G3	Product Name:	One Line Car Vacuum Cleaner
Motor Type:	H45 Brushless Motor	Gear Adjustment:	3rd Gear
Rated Voltage:	11.1V ~	Rated Power:	100W
Current:	Low: 4.5A / Medium: 6.0A / High: 9.0A	Vacuum Degree:	Low >11kPa / Medium >14 / High >18kPa
Battery Capacity:	2600mAh	Number Of Batteries:	3 Cells
Battery Life:	Low 35min / Medium 20min / High 17min	Charging Time:	4.5h
Dust Cup Capacity:	200ml		

- Three-level adjustment Charging (green/orange/red)
- Type-C charging Convenient and fast, long-lasting battery life
- One-touch dust emptying Easy to operate, simplifying cumbersome tasks
- 45 brushless motor Powerful performance, efficient cleaning
- Digital display screen Battery level display, control your time
- Multi-function mode Four-in-one action: blowing, inflation, and pumping

Foldable wireless car washing gun

G5

Model:	G5	Product Name:	One Line Car Vacuum Cleaner
Motor Type:	550 Copper Wire Brushed	Gear Adjustment:	3rd Gear
Rated Voltage:	11.1V ~	Rated Power:	120W
Current:	Low: 4.5A / Medium: 6.0A / High: 7.5A	Vacuum Degree:	Low >11kPa / Medium >14 / High >18kPa
Battery Capacity:	2600mAh	Number Of Batteries:	3 Cells
Battery Life:	Low 35min / Medium 20min / High 17min	Charging Time:	4.5h
Dust Cup Capacity:	200ml		

- Three-level adjustment Charging (green/orange/red)
- Type-C charging Convenient and fast, long-lasting battery life
- Smart start-stop Instant on and off, convenient and fast
- Self-priming dual-use Multi-scenario use, meeting needs
- 550 pure copper wire motor Powerful performance, efficient cleaning
- Digital display screen Battery level display, control your time
- Multi-functional Modes Four-in-one action: blowing, inflation, and pumping

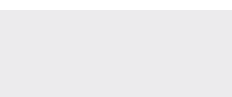

Brushless motor

Folding bucket cleaning machine

G6

Model:	G6	Product Name:	Folding Bucket Cleaning Machine
Motor Type:	550 Copper Wire Brushed	Pump Type:	12mm Plunger Pump
Gear Adjustment:	2nd Gear	Bucket Capacity:	13L
Rated Voltage:	18.5V ~	Rated Power:	150W
Current:	Low: 5.5A / High: 8A	Outlet Pressure:	Low 1.0Mpa / High 1.5Mpa
Water Flow Rate :	Low: 2.2 / High: 2.5 L/min	Battery Capacity:	1500mAh*10
Battery Life:	Low 32.7min / High 22.5min	Charging Time:	6.5h
Developed Size:	32.6"32.3"28.8cm	Folded Dimensions:	32.6"32.3"15.2cm

- Two-speed adjustment Two-stage water outlet pressure regulation
- Type-C charging Convenient and fast, long-lasting battery life
- Smart start-stop Instant on and off, convenient and fast
- 550 pure copper wire motor Powerful performance, efficient cleaning
- Digital display screen Battery level display, control your time
- Multi-functional Modes Four-in-one action: blowing, inflation, and pumping

Folding bucket cleaning machine

G6max

Model:	G6max	Product Name:	Folding Bucket Cleaning Machine
Motor Type:	3820 Brushless Motor	Pump Type:	12mm Plunger Pump
Gear Adjustment:	2nd gear	Bucket Capacity:	13L
Rated Voltage:	18.5V ~	Rated Power:	150W
Current:	Low: 4.5A / High: 8A	Outlet Pressure:	Low 1.1 / High 1.55Mpa
Water Flow Rate :	Low: 2.2 / High: 2.6 L/min	Battery Capacity:	2000mAh*10
Battery Life:	Low 53min / High 30min	Charging Time:	9.0h
Developed Size:	32.6"32.3"33.2cm	Folded Dimensions:	32.6"32.3"15.2cm

- Two-speed adjustment Two-stage water outlet pressure regulation
- Type-C charging Convenient and fast, long-lasting battery life
- Smart start-stop Instant on and off, convenient and fast
- 3820 brushless motor Powerful performance, efficient cleaning
- Digital display screen Battery level display, control your time
- Multi-functional Modes Four-in-one action: blowing, inflation, and pumping

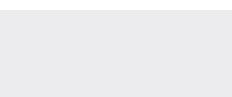

Brushless motor

Emergency all-in-one machine

G9

Model:	G9	Product Name:	Emergency All-in-one Machine
Motor Type:	Brushed Motor	Diameter Of Air Pump:	22mm
Rated Voltage Of Air Pump:	DC14.8V (Excluding Starting Power Supply)	Rated Power Of Air Pump:	70W (Excluding Starting Power Supply)
Rated Current Of Air Pump:	5A (Excluding Starting Power Supply)	Inflation Pressure:	120PSI(MAX)
Time To Inflate 195/65 R15 Tires From 0 - 35psi:	About 6-7 min	Charging Motorcycle Tires At 0-34psi Time:	About 2-3.5 min
Charging 700C Mountain Bike Tires For 0 - 120psi Time:	About 1-2 min	Charging Basketball At 0-8psi Time:	About 1-2 min
Starting Voltage:	12V	Starting Current:	180A (Instantaneous Discharge Capability)
Polymer Lithium Battery:	6000mAh	USB Output:	5V ~ 2A
Charging Time:	3h		

- LED lighting/SOS Bright lighting, emergency alarm flash
- Type-C Charging Easy, fast, and long-lasting
- Auto shut-off when inflates automatically and stops when full, convenient and fast
- Digital display screen Battery level, vehicle model, mode display
- Multi-function inflation mode Switch freely between inflation modes for various vehicle types
- fully charged Car emergency start Handling unexpected car situations

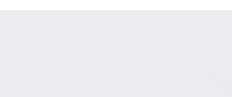

Brushless motor

Multi functional emergency all-in-one machine

G9pro

Model:	G9pro	Product Name:	Emergency All-in-one Machine
Motor Type:	Brushed Motor	Diameter Of Air Pump:	22mm
Rated Voltage Of Air Pump:	DC 14.8V (Excluding starting power supply)	Rated Power Of Air Pump:	70W (Excluding Starting Power Supply)
Rated Current Of Air Pump:	5A (Excluding Starting Power Supply)	Inflation Pressure:	120PSI(MAX)
Time To Inflate 195/65 R15 Tires From 0 To 35psi:	About 6-7 min	Charging Motorcycle Tires At 0-34psi Time:	About 2-3.5 min
Charging 700C Mountain Bike Tires For 0 - 120psi Time:	About 1-2 min	Charging Basketball At 0-8psi Time:	About 1-2 min
Starting Voltage:	12V	Starting Current:	240A (Instantaneous Discharge Capability)
Polymer Lithium Battery:	8000mAh	USB Output:	5V ~ 2A
Charging Time:	4.5h		

- LED lighting/SOS Bright lighting, emergency alarm flash
- Type-C Charging Easy, fast, and long-lasting
- Auto shut-off when inflates automatically and stops when full, convenient and fast
- Digital display screen Battery level, vehicle model, mode display
- Multi-function inflation mode Switch freely between inflation modes for various vehicle types
- fully charged Car emergency start Handling unexpected car situations

Multi functional emergency all-in-one machine

G10

Model:	G10	Product Name:	Emergency All-in-one Machine
Air Pump Motor Type:	Brushed Motor	Diameter Of Air Pump:	22mm
Rated Voltage Of Air Pump:	DC14.8V (Excluding Starting Power Supply)	Rated Power Of Air Pump:	70W (excluding starting power supply)
Rated Current Of Air Pump:	5A (Excluding Starting Power Supply)	Inflation Pressure:	120PSI(MAX)
Time To Inflate 195/65 R15 Tires From 0 To 35psi:	About 6-7 min	Charging Motorcycle Tires At 0-34psi Time:	About 2-3.5 min
Charging 700C Mountain Bike Tires For 0 - 120psi Time:	About 1-2 min	Charging Basketball At 0-8psi Time:	About 1-2 min
Vacuum Motor Type:	Brushed Motor	Rated Power:	70W (excluding starting power supply)
Tated Voltage:	DC 14.8V (Excluding Starting Power Supply)	Maximum Vacuum Degree:	>6kPa
Rated Current:	5A (Excluding Starting Power Supply)	Maximum Atmospheric Flow Rate:	>9L/S
Starting Voltage:	12V	Starting Current:	120A (Instantaneous Discharge Capability)
Polymer Lithium Battery:	10000mAh	USB Output:	5V ~ 2A
Charging Time:	5h		

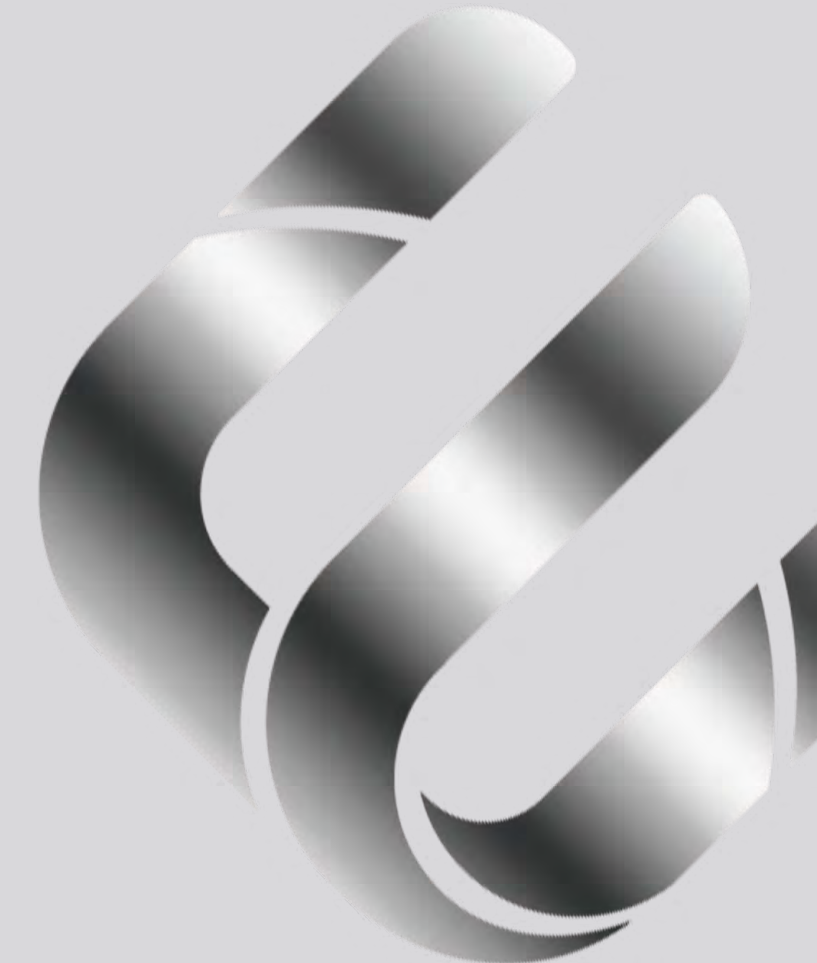

- LED lighting/SOS Bright lighting, emergency alarm flash
- Type-C Charging Easy, fast, and long-lasting
- Auto shut-off when inflates automatically and stops when full, convenient and fast
- Digital display screen Battery level, vehicle model, mode display
- Multi-function inflation mode Switch freely between inflation modes for various vehicle types
- Extraction mode Daily use of vacuum pumping
- Blowing mode Blowing dust

NEWLY UPGRADED
Cleaning equipment

ABOUT US

Yongkang Yuhao Lang Industry and Trade Co., Ltd. is a comprehensive enterprise integrating R&D, design, production and sales. Located in Yongkang, Zhejiang Province—the China Hardware Technology Center, the company covers a total production area of 22,000 square meters and is equipped with advanced modern production equipment.

We specialize in the production and sales of various high-quality cleaning equipment, including vacuum cleaners, car washers, car vacuum cleaners, and air pumps. Our products are widely used in household, automotive, car wash, factory and workshop scenarios, and are highly trusted and praised by customers. We have a skilled, professional and efficient R&D team that continuously innovates and upgrades to provide customers with better products and services. We have introduced a series of internationally advanced equipment and technologies, and established cooperative relationships with well-known domestic and foreign enterprises to continuously improve our production capacity and product quality. The company strictly follows the requirements of the ISO9001 quality management system for production and management, ensuring that every product meets international advanced standards. Our products have obtained multiple global patents and certifications such as ETL, CE, EMC and CCC through independent intellectual property rights. As one of the leading enterprises in the field, we have always promoted development in products, quality and services; adhered to craftsmanship, improved product quality, enhanced corporate competitiveness, and driven social progress. We have always been committed to providing customers with the highest quality products and services to meet their evolving needs. Our sales network covers many countries and regions around the world, and our products enjoy a high reputation and positive customer feedback in Europe (Germany, Italy, Poland, the UK, France, Portugal, Sweden, Russia, etc.), Asia (Japan, Vietnam, Malaysia, the Middle East, etc.), North America and Africa.

We look forward to your visit and cooperation.

CORPORATE HONORS

From national high-tech enterprise certification to recognition by international authoritative institutions, every certificate is a medal of our pursuit of excellence, witnessing the integration of technology and craftsmanship. Driven by innovation, we maintain independent control over core technologies, build a solid intellectual property barrier, and continuously provide customers with more reliable and competitive products and services.

7-shaped car vacuum cleaner

G1

Model:	G1	Product Name:	7-Shaped Car Vacuum Cleaner
Motor Type:	38 Brushed Motor	Gear Adjustment:	3rd Gear
Rated Voltage:	11.1V ~	Rated Power:	100W
Current:	Low: 5.2A / Medium: 6.2A / High: 7.5A	Vacuum Degree:	Low: 5.2 / Medium: 6.2 / High: 7.5Kpa
Battery Capacity:	2000mAh	Number Of Batteries:	3 Cells
Battery Life:	Low 35min / Medium 25min / High 18.5min	Charging Time:	4.0h
Dust Cup Capacity:	200ml		

- Three-level adjustment (green/orange/red)
- Type-C charging (green/orange/red)
- Digital display screen (green/orange/red)
- Multi-function mode (green/orange/red)
- 45 brushless motor (green/orange/red)
